Network Rendering

Tap into KeyShot's unlimited performance-scaling power by networking **multiple CPUs** in your organization.

System Requirements

- Windows 7, 8, 10
- Mac OS X 10.7 or later
- Intel or AMD processor
- 2GB of RAM or greater
- 2 GB HD or more
- Any graphics card

Amazing rendering and animation. In real-time.

What is KeyShot?

As a standalone, real-time rendering application KeyShot makes creating amazing renderings and animations **fast** and **easy**, with support for the widest number of 3D file formats on both **Mac** and **PC**.

Used worldwide by top design professionals and independent 3D artists, KeyShot is the complete solution for your 3D visualization needs.

Advanced Lighting

Spherical **HDRI** environments make setup easy, while physical lights provide **scientifically accurate** simulation. Visualize scenes with simple settings that create the most accurate lighting from studio shots to the most complex interiors.

Real-Time Speed

KeyShot's **real-time rendering** allows you to see everything as it happens. Every change from materials and lighting to cameras and animation is seen instantly.

Accurate Materials

KeyShot's **scientifically accurate** materials create the highest quality visuals. Select from an extensive library of material presets, modify to customize your own, and browse the **Cloud Library** for user generated and exclusive partner assets.

Easy to Use

A **drag-and-drop** based workflow makes KeyShot easy to learn in minutes. The **simple interface** lets you save time and focus on design, while also providing advanced capabilities for experienced users.

Efficient Workflow

With support for over 20 native 3D formats and **free plugins** for major CAD applications, KeyShot seamlessly integrates into your product development process from rough design concept to final production images.

CPU Powered

Compatible with **PC** and **Mac**, KeyShot uses 100% of available CPU power. No special graphics card is needed and all CPU power scales linearly for unmatched performance.

Interactive Content

Easily add **animation** to engage your audience with simple turntables, dynamic exploded views, dramatic camera paths and much more.

KeyShotVR® brings the advantage of plugin-free touch enabled web content to desktops and mobile.
